

Hoodii is a dynamic and genre-bending DJ known for his electrifying Tech House sets infused with Latin-inspired rhythms and samples. Since launching his career in 2009, the Brazilian-born artist has cultivated a signature sound that fuses deep grooves, energetic buildups and latin samples stemming from Brazilian Funk, Reggaeton, and tropical textures with nostalgic melodic undertones— an immersive blend that transports crowds into a hypnotic groove from start to finish.

With a style rooted in House and Techno but unbound by convention, Hoodii's performances are both high-energy and emotionally resonant. His music has captured the attention of global heavyweights including having the opportunity to open for former (Carnage) now known as Gordo, Markus Schulz, Liu, Sterium, Steve Aoki and dancing with crowds throughout the US's east coast — earning him growing recognition across the electronic scene.

In 2013, Hoodii took the stage at the world-renowned EDC LAS VEGAS's ART CART as well as being a featured member in the official EDC DOCUMENTARY: Under The Electric Sky — A special and world recognized electronic music festival for special set that further cemented his momentum. Back home, he's been a fixture at Boston's finest and nicest nightclubs with standout performances at Royale Boston, Underbar, Pachaa, Fifth Amendment, Instyle, and Venue, amongst others.

As Hoodii continues to evolve his sound while residing in sunny South Florida he has been expanding his reach while remaining committed to one mission: delivering an unforgettable, rhythm-fueled experience that moves both body and soul.
